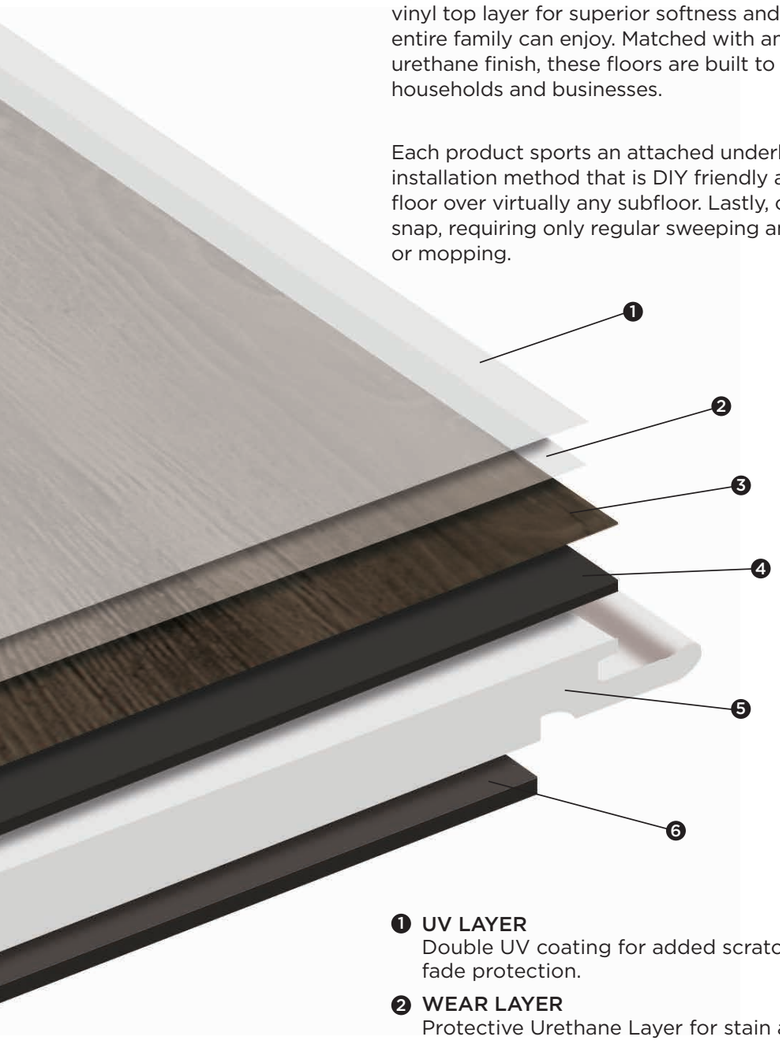
PRODUCT BROCHURE — 2022

WPC FLOORING

Our WPC floors are 100% waterproof, which means there is no swelling of planks or damages as a result of exposure to spills and other forms of moisture. Through our technically advanced construction, our engineered core backing combines plastic composites and foaming agents to form a bond of strength and stability. Topped with a virgin vinyl top layer for superior softness and quietness under foot that the entire family can enjoy. Matched with an industry-leading wear layer of urethane finish, these floors are built to perform flawlessly for active households and businesses.

Each product sports an attached underlayment and easy click lock installation method that is DIY friendly and can be installed as a floating floor over virtually any subfloor. Lastly, cleaning and maintenance are a snap, requiring only regular sweeping and the occasional spot cleaning or mopping.



1 UV LAYER
Double UV coating for added scratch and fade protection.

2 WEAR LAYER
Protective Urethane Layer for stain and scratch resistance.

3 DÉCOR FILM
Realistic wood décor. Dent resistant.

4 VINYL LAYER
100% Waterproof.

5 COMPOSITE CORE
100% Waterproof.

6 UNDERLAYMENT
IXPE Closed Cell cushion for advanced sound absorption. Impervious to water. Hides subfloor imperfections.

SPC FLOORING

Our Rigid Core SPC composite floors are second to none.
The (Stone Plastic Composite) core construction is comprised of a generous amount of limestone and has a higher density rating in comparison to WPC. Its high density offers better resistance from scratches or dents from heavy items or furniture.

Built with the active household and commercial applications in mind, our SPC is topped with an industry leading wear layer technology. All of our SPC products are 100% waterproof and come with an attached underlayment and an easy click locking system. Lastly, cleaning and maintenance are a snap, requiring only regular sweeping and the occasional spot cleaning or mopping.

1 UV LAYER
UV coating for added scratch and fade protection.

2 WEAR LAYER
Protective Urethane Layer for stain and scratch resistance.

3 DÉCOR FILM
Realistic wood décor. Dent resistant.

4 COMPOSITE CORE
100% Waterproof.

5 UNDERLAYMENT
IXPE Closed Cell cushion for advanced Sound Absorption. Impervious to water. Hides subfloor imperfections.

LUXURY VINYL FLOORING

Available in 3 thicknesses (2mm, 3mm, and 5mm), we only use 100% virgin vinyl in our Luxury Vinyl products for superior durability and stability. This means there is no recycled content in the construction of our Luxury Vinyl products. It is phthalate free and void of heavy metal contaminants. Available in two installation methods, glue down or loose lay, there's something to offer for every application.

Each of our selections comes with Urethane Wear Layer and UV coating for lasting beauty and superior fade, scratch and stain resistance. Our Luxury Vinyl products are 100% waterproof and easy to maintain and clean.
